Purpose of the census

The Census of Commercial Agriculture covers the activities on commercial farms in South Africa. For the purpose of this census, a commercial farm is a farm that is registered for VAT (Value Added Tax). Results of the survey serve as the basis for evaluating the present situation (in terms of production, labour, farming expenses, farming debt, food security, etc.) and the market needs for agriculture. The results can benefit you directly, since it will enable you to position your operation in relation to other farms in South Africa. These results will be published in Statistical Release P1101 - Census of Commercial Agriculture 2002, and in Report 11-01-01 - Census of Commercial Agriculture 2002.

Collection authority

The information required is collected under section 16 of the Statistics Act, 1999 (Act No. 6 of 1999). Your co-operation is sought in completing and returning this questionnaire by the due date.

Confidentiality

In accordance with section 17 of the Statistics Act, 1999 (Act No. 6 of 1999), your completed questionnaire remains confidential to Statistics South Africa (Stats SA).

Due date

Please complete this questionnaire and return it in the business reply service envelope or fax it to Stats SA by **30 September 2002.** If exact figures are not available, please provide careful estimates. Stats SA recommends that you retain a copy to refer to, in the event of a query.

Part 3 - Particulars of the farming unit

Note

The data is collected on a farming unit basis. A farming unit consists of one or more farms, holdings or pieces of land, whether adjacent or not, operated as a single unit and situated within the **same province**.

A **farming unit** means any unit on which one or more of the following farming operations are carried out for commercial purposes:

- The cultivation, in the open air or under cover, of field crops, fruit, grapes, nuts, seed, bulbs, vegetables, plants or flowers.
- The operation of a tea, coffee, sugar, wood or other plantation.
- The breeding of livestock, poultry, game or other animals, including freshwater fish, furred animals, and trade in livestock.
- The production of milk, wool, fur, eggs or honey.

In the case of specific types of farming where a degree of processing of the agricultural product takes place on the farming unit, these activities should be included, for example the slaughter of poultry and the drying of tea leaves and fruit (raisins, guavas, etc.).

Where two or more persons conduct the farming operations as a unit in a partnership, or as a company, close corporation or other type of ownership, these operations should, for the purpose of this census, be regarded as a single farming unit.

If separate records exist, particulars of other operations conducted in addition to the farming operations as part of the farming unit, such as a holiday resort or retreat, or a factory or a mine, should be included in Part 7 - Other income.

Composition and area of the farming unit as at 28 February 2002

Note

- The total area must be given in hectares. Fractions of a hectare should be rounded off (2,5 acres or 1,2 morgen is approximately 1 hectare. 100 acres are approximately 40 hectares. 100 morgen are approximately 86 hectares).

Part 5 - Field crop and horticultural products: Area planted, production and gross farming income earned by this farming unit for the financial year

Note

- 1 Metric ton = 1 000 kg. 1 Metric ton is approximately 11 bags of 90 kg or approximately 14 bags of 70 kg.
- If areas were planted with a crop or crops, but no yields were obtained, the reasons for the crop failure(s) should be given in the column “Quantity harvested” or “Total production/ crop” (e.g. drought and hail).
- All current expenditures incurred in connection with farming activities should be shown in Part 9. Capital expenditures, such as fixed costs incurred with new orchards and plantations, should be shown in Part 10.
- Please include details of agricultural crops that are retained by you and your employees for, inter alia, seed, stock feed and human consumption and that form part of the quantity harvested or the total production/crop (column 3 and 4).
- Please show gross income earned from agricultural products sold from this farming unit for the financial year (column 5).
- The value of products and livestock sold, but for which payment has not yet been received should be included.
