

**B**anks, credit institutions, insurance companies, Tehran Stock Exchange, Ghardh-al-hasaneh (interest-free) funds, retirement funds, and investment companies comprise the financial institutions of the country. A short history of statistical activities and data collection methods of these institutions is as follows:

**1. Monetary and banking statistics:** monetary and banking data collection dates back to the year 1307, when the Bank Melli Iran (The National Bank of Iran) was founded. From 1314 the activity was enhanced by the establishment of the Statistical and Economic Researches Bureau in the Bank. The Central Bank of the I. R. of Iran took the responsibility over as it was founded in the year 1339.

At the time being, the Central Bank of the I.R. of Iran collects and releases the monetary and banking information based on the reports it regularly receives from the banks across the nation.

**2. Insurance:** Iran Insurance Co. Ltd. was established in the year 1314. Insurance data collection, however, was started in the year 1339 after the foundation of the Bureau of Statistics and Information of the company. The Bureau

experienced reorganization in the year 1345 and resumed data collection with more improved facilities.

The Central Insurance of Iran, which was founded in the year 1350 to lead and supervise insurance activities, entrusted production and release of statistical information to its statistics bureau. At present, the insurance-related data are collected and disseminated by the Central Insurance of Iran through using the documents of different insurance companies.

**3. Stock market:** Tehran Stock Exchange Market has been in charge of collecting register data of securities exchanges since the year 1346.

**4. Other financial activities:** in addition to the above activities, some other activities are carried out by credit cooperatives to meet the financial needs of members. The data on such activities have been received and disseminated as register data from the Ministry of Cooperatives since the year 1370. Moreover, there are financial activities by Ghardh-al-hasaneh funds and some other credit institutions whose statistical data have not been collected so far in a comprehensive way.
