

Introduction

Banks, credit institutions, insurance companies, Tehran Stock Exchange, Ghardh-al-hasaneh (interest-free) funds, retirement funds, and investment companies comprise the financial institutions of the country. A short history of statistical activities and data collection methods of these institutions is as follows:

1. Monetary and bank: monetary and banking data collection dates back to the year 1307, when the Bank Melli Iran (The National Bank of Iran) was founded. From 1314 the activity was enhanced by the establishment of the Statistical and Economic Researches Bureau in the Bank. The Central Bank of the I. R. of Iran took the responsibility over as it was founded in the year 1339.

At the time being, the Central Bank of the I.R. of Iran collects and releases the monetary and banking information based on the reports it regularly receives from the banks across the nation.

2. Insurance: Iran Insurance Co. Ltd. was established in the year 1314. Insurance data collection, however, was started in the year 1339 after the foundation of the Bureau of Statistics and Information of the company. The Bureau experienced reorganization in the year 1345 and resumed data collection with more improved facilities.

The Central Insurance of Iran, which was founded in the year 1350 to lead and supervise insurance activities, entrusted production and release of statistical information to its statistics bureau. At present, the insurance-related data are collected and disseminated by the Central Insurance of Iran through using the documents of different insurance companies.

3. Stock exchange: Tehran Stock Exchange Market has been in charge of collecting register data of national securities stocks exchanges since the year 1346. Stock exchange tables were revised in the year 1396.

4. Other financial activities: in addition to the above activities, some other activities are carried out by credit cooperatives to meet the financial needs of members. The data on such activities have been received and disseminated as register data from the Ministry of Cooperatives since the year 1370. Moreover, there are financial activities by Ghardh-al-Hasaneh funds and some other credit institutions whose statistical data have not been collected so far in a comprehensive way.

Information and statistics appeared in this chapter includes: number of banking units, amount of their assets and liabilities, changes in the banks resources and uses, liquidity, public and non-public sector's deposits with banks and their debts to the banks, the credits provided by banks to the non-public sector separately by economic sectors, banks exchanged shares, status of participation

papers issued, government bonds in stock, premiums received and claims paid in the insurance market of Iran, exchange of shares in the stock market, and specifications of the credit cooperatives.

Definitions and concepts

Banking operations: activities such as accepting deposits, granting banking facilities, dealing in bills and drafts (promissory notes), exchange transactions, operations related to bonds and securities, money transfers within the country, as stipulated by law.

Banking unit: any branch, agency or counter of a bank.

Banking system: the whole body of public and private banks as well as non-bank credit institutions and the Central Bank of the I. R. of Iran.

Specialized banks: banks engaged in certain economic activities that use their credits for special purposes. Banks of San'at va Ma'dan (Mining and Manufacturing Bank), Maskan (Bank of Housing), Keshavarzi (Agricultural Bank), and Towse-e-ye Saderat (Exports Development Bank) are specialized banks.

Commercial banks: banks whose credit activities are not restricted to certain economic areas.

Public sector: the government and affiliated corporations and institutions as well as municipalities.

Non-public sector: all private sector, the Islamic Revolution institutions and certain companies sponsored by the ministries.

Banking facilities extended to the public sector: facilities extended by the banking system to the government and affiliated corporations and institutions as well as municipalities. Facilities may be in the form of granting direct credits or purchasing government securities (treasury bonds and securities).

Banking facilities extended to non-public sector: credits granted by the banking system to the private sector since the year 1363 through different Islamic contracts according to the act of usury - free banking operations and approved regulations. These contracts include legal partnership, civil partnership, installment sales, direct investment, Modharaba, Muzara'ah, Musaqat, Jo'ala, forward transactions, hire purchase, Ghardh-al-hasanah, and debt purchase.

Legal partnership: to provide a part of the capital of a newly established company (ltd.) or to purchase some stocks of the existing ones.

Civil partnership: joining of the shares of several natural and legal persons in cash or in kind to form a joint venture to make profit, under a contract.

Installment sale: transferring the ownership of some visible item to another person at a certain price received wholly or partly in equal or unequal installments at certain due dates.

Direct investment: provision of funds for the implementation of manufacturing projects and profit-making development projects by the banking system without participation of any non-bank legal or natural persons.

Mudarabah: a financing contract under which one party (owner) provides funds (cash) and the other party (agent) provides labour and expertise and does business and the two parties share in the profit.

Mozara'ah: a contract under which one party, the land owner (Zare) transfers a certain piece of land for a fixed term to the other party (agent) to be cultivated. The resulted benefit is divided between the two parties.

Musaqat: a financial contract between the owner of trees and the like and some agent. Each party would have a certain share of the products which may include fruits, leaves, flowers, and the like.

Juala: under Jo'ala, one party, the employer (Ja'el) is committed to pay a certain amount of compensation (Ja'al) to another party, the agent, for a certain work, under a contract.

Forward transaction: forward cash purchase of various products at certain prices.

Hire purchase: a kind of leasing contract which stipulates that at the end of leasing time, the lessee would own the leased asset in case he has observed all conditions mentioned in the contract.

Ghardh-al-Hasaneh: a financial arrangement in which the banks lend certain amounts to natural or legal persons according to the rules and regulations.

Non-public sector deposits: funds deposited with the banks according to certain arrangements by natural or legal persons.

Public sector deposits and funds: sum of funds deposited with the banking system by ministries, government agencies and corporations.

Administered funds: funds deposited with the banks for private uses according to a certain contract or law. The banks spend such funds on behalf of the depositors on cases agreed upon without supervision.

Legal deposits: a specified percentage of sight and non-sight deposits of the public with the banks which should be kept according to the law with the Central Bank of the I. R. of Iran.

Sight deposits: deposit against which the bank ought to pay the amount of checks on behalf of the depositor upon receipt of them. Sight deposits are also called Ghardh-al-hasaneh current deposits.

Non-sight deposits: a part of liquidity with a low rate of liquidation comparing with money, comprising Ghardh-al-hasaneh savings deposits and term investment deposits.

Ghardh-al-Hasaneh savings deposits: such deposits are not entitled to any interest; but, in order to attract and encourage depositors, the banks may give prizes in cash or kind through drawing lots.

Term investment deposits: short-term or long-term investment deposits for which the bank acts as depositor's agent and the interest gained from them is shared between the bank and the depositor according to the Islamic contracts.

Claims on the public sector: sum of the balances of loans granted by the banking system to ministries or government corporations according to special legal permits.

Claims on non-public sector: sum of the balances of loans and credits granted by the banks to the private sector.

Foreign assets of the banking system: including gold and foreign exchanges as support of Iran's stocks in international institutions as well as gold and free market foreign exchange.

Liquidity: private sector sight and non-sight deposits with the banks as well as notes and coins with the public.

Money: a part of liquidity with a high rate of liquidation which in Iran comprises the non-public sector sight deposits with banks and notes and coins with the public.

Quasi money: a portion of deposits of the private sector with the banks that are less liquid than the non-public sector sight deposits. Quasi money presently includes term investment deposits, Ghardh-al-hasaneh savings deposits, and other deposits.

Balance (outstanding) at the end of the year: the difference between payments and receipts of the year plus the stock at the beginning of the year.

Bank resources: capital and liabilities of the bank.

Uses of the bank: all assets of the bank.

Blocked resources: a part of the banks' resources with the Central Bank which have been blocked due to enforcement of monetary policies (determining the proportion of legal deposits, selling bonds to the banks, etc.) and are not allowed to be used by banks.

Insurance: a contract under which one party guarantees to compensate or pay a certain amount to the other party in case of an accident or loss incurred for an agreed sum supplied by the latter. The guarantor is the insurer; other party of the guarantee is the insured person. The sum which is paid by insured person to the insurer is insurance premium and the object which is insured is called insurance subject.

Direct insurance premium: a sum directly paid by the insured to the insurer within the country.

Insurance premiums issued: amount of direct insurance premiums received in the insurance market of the country during the year concerned (according to the system based on fiscal year) excluding indirect insurance premiums obtained through reinsurance arrangements.

Insurance premium received: The difference between the insurance premium savings from the beginning and the end of the period with the insurance premiums of the same period.

Losses incurred: outstanding losses reserves at the beginning of the year minus (losses paid at the same period plus outstanding losses at the end of the year).

Claims paid: money paid by the insurer to the insured to compensate the losses incurred to the insured after occurrence of the accident.

Claims coefficient: ratio of claims paid to insurance premiums received (outstanding losses and premium savings are considered in its calculation).

Reinsurance: a contract under which an insurance company (transferor) cedes whole or some of its guarantees to other acceptor insurance companies (reinsurer) in case of payment of its insurance premium to those companies. The reinsurer will pay its share of the claim.

Fire insurance: within the regulations approved by insurance high council, the insurer guarantees to pay the losses incurred to insured person's properties resulting from fire, explosion and lightning. In this type of insurance policy, other kinds of risks such as earthquake, flood, thunderstorm, water leaking, pipe bursting, glass breaking, theft by breaking the protections and plane crash on the properties and buildings can be covered by paying extra sum of insurance premium.

Cargo insurance: within the regulations approved by insurance high council, the insurer guarantees to pay the losses incurred to insured person's properties during loading, transportation and unloading.

Accidents insurance: within the regulations approved by insurance high council, the insurer guarantees to pay out the life damages caused by accident (death, impairment, and disability) to the insured person or the beneficiary. In this type of insurance, medical expenses and daily losses can be covered by mutual agreement and receiving extra insurance premium.

Car (body) insurance: within the regulations approved by insurance high council, the insurer guarantees to pay out the incurred losses to the insured vehicle resulting from theft, fire, explosion, car accident, crash, overturning and totally, car clash with any stable or moving object or clashing any other object with the insured car.

Third party insurance: within the regulations approved by insurance high council, the insurer guarantees to pay the life and financial losses incurred to the third party on the basis of terms included in insurance policy, if it is recognized that the owner of insured vehicle is liable for the compensation of the losses resulting from car accidents.

Health insurance: within the regulations approved by insurance high council, the insurer guarantees to pay out the insured person's medical expenses as amount as written in the insurance policy. This type of insurance is issued in group or family in the country.

Ship insurance: within the insurance policy, the insurer guarantees the payment of indemnity for the damages caused on the ships body and equipment or its destruction which might result from the accidents such as collision, fire accident, sinking, stranding as well as rescue charges and owner's share from general damages as mentioned in the insurance policy.

Airplane insurance: within the insurance policy, the insurer guarantees the payment of indemnity for the damages caused on the plane or its destruction which might result from the accidents such as crashes, collision, fire accident and hijack, as mentioned in the insurance policy.

Engineering insurance: within the insurance policy, the insurer guarantees the payment of indemnity which might result from designing, manufacturing, installation and maintenance of structures and machinery resulting from engineering responsibility. This insurance covers the losses caused from the breakdown of the machinery.

Money insurance: within the insurance policy, the insurer guarantees to pay out the incurred losses caused by theft (armed) and accident (fire, explosion, flood, etc.) to the money existent in a safe (of banks, financial institutes, etc.) or on the

way of transiting. Totally, scope of money insurance cover is divided into two sections :⁽¹⁾ Money in transit and ⁽²⁾ Money whilst in a locked safe.

Civil responsibility Insurance: within the civil responsibility insurance policy, the insurer guarantees to pay out the insured person, as the person responsible for the indemnity payment for damages he/she has caused to third persons unintentionally. Professional responsibility insurance (physicians, paramedics, lawyers...), transportation operators' responsibility insurance, employer's responsibility to workers, builders' responsibility insurance, public and recreation places (hotel, cinema, pool, park,...) responsibility insurance are among this insurance.

Credit insurance: this type of insurance is divided into two sections: domestic and goods export credit. Within the regulations approved by insurance high council, the domestic credit means customer's debt capacity which is offered to the clients by economic enterprises in lieu of providing goods and services and also by banks and credit and financial institutes with the central bank's permit as financial facilities; and the claims resulting from these activities will be exposed to the risk of payment default. According to regulations, domestic credit insurance contracts are concluded in group and just with legal persons provided that their economic activities guarantee the risk of default of the claims resulting of the credits granted to them. Paying the insured person's or beneficiary's claims in relation to selling exported goods in the form of Letter of Credit opening contracts (L/C) and cession of documents in lieu of payment (D/P) and documents in lieu of assurance (D/A) are the subjects of export credit insurance.

Life insurance: a contract under which the insurer guarantees to pay a certain insurance sum (capital or pension) to the insured person or designated beneficiary by the insured person.

Other types of insurance: including insurances for oil exploration and discovery, health, honesty and fidelity, non-profit making, loans and credits, and properties against robber.

Stock exchange: a building or place where bankers, brokers, and dealers of securities meet to exchange the securities to provide the financial resources required for manufacturing enterprises.

Corporations accepted: public joint stock companies which are accepted in the stock exchange organization, whose stocks are offered for sale to the public by the stock exchange mechanism.

Primary market: stocks and rights issue in the most of the micro, block and major-transitional tradings are conducted in this market.

Secondary market: stocks and rights issue in the most of the micro, block and major-transitional tradings are conducted in this market.

Bound(debt) market: bounds are traded in this market.

Bound: is a security under which the issuer is obliged to pay specific amounts of money (annual interest) at specified time to the holder and repay the principal at maturity date. The *holder* of the bond as the lender (creditor) has the right to receive the principal and interest, but has no ownership in the company. Bond in Tehran Stock Exchange include participation papers, types of cheques and certificate of deposit.

Market of investment funds: investment funds are traded in this market.

Investment fund: a financial institution whose main activity is to invest in securities, and its owners are partners in the profit and loss of the fund based on their investment. The investment fund will invest the financial resources generated from the issuance of the certificate of investment in its approved activities. Types of investment funds in Tehran Stock Exchange include fixed income funds, equity(stock) funds, mixed funds, land and buildings.

Derivatives market: futures contracts, put options and call option are traded in this market.

Futures contracts: is a contract under which the seller is obliged to sell a certain number of basic asset at the specified maturity date at a predetermined price in the contract, and in return, the buyer is obliged to buy that certain number of basic asset at the maturity date. In order to prevent any default by either party on their contract obligations, the parties shall post a margin(performance bond) as stipulated in the contract with the broker or the clearing house and adjust the margin in accordance with the changes in the future price, and the broker or the clearing house shall have a power of attorney on behalf of the parties to possess part of the parties' margin as the permission of possession, and provide it to the other party and will have the right to use it until the settlement is made by the parties at the delivery period. The seller and buyer can delegate their obligations for a specified amount to a third party who shall undertake their commitments as their substitutes.

Put options: is a stock market device which gives the buyer the right to sell a specified number of basic asset at maturity date in accordance with the obligations settlement conditions declared in the securities specifications.

Option: is a security under which the seller shall undertake, at the buyer's request, to settle in cash a specified amount of basic asset at strike price or in case of mutual agreement. The buyer can make

the transaction at a specified time or time series in the future under the contract. The seller of the option will receive a certain amount from the buyer against this obligation. In order to prevent any default by the seller on his/her contract obligations, the seller shall post a margin(performance bond) as stipulated in the contract with the broker or the clearing house and adjust the option in accordance with the changes in it. Either buyer or seller can delegate their authority or obligation to a third party for a specified amount and he/she will replace them. The option may be either a put option or call option.

Credit cooperatives: these cooperatives are responsible to meet the financial requirements of their members by granting them a variety of loans. Included are employees' credit cooperatives, labourers' credit cooperatives, and open credit (other) cooperatives.

Selected information

In the year 1396, total amount of liquidity (money and quasi money) was about 15299.8 thousand billion rials which increased by 22.1 percent compared to the previous year.

Out of the total liquidity, 12.7 and 87.3 percent were money and quasi-money, respectively.

Balance of assets of banking system at the end of the year 1396 was more than 35411.3 thousand billion rials which increased by 23.1 percent compared to the previous year.

Over the same year, claims of the banking system on public sector were about 2586.1 thousand billion rials, showing a rise of 17.7 percent in comparison with the year 1395.

Also over the same year, claims of banks and non-bank credit institutions on non-public sectors were about 10918.5 thousand billion rials which increased by 19 percent compared to the previous year.

The outstanding balance of non-public sector's deposits with the banking system in the year 1396 was about 14857.1 thousand billion rials which rose by 22.4 percent compared to the previous year.

In the year 1396, value of sold participation papers was about 50.6 thousand billion rials, indicating an increase of 8.4 percent compared to the previous year.

In the year 1396, the foreign debt of the country reached 10910 million dollars which increased by 28.6 percent compared to the previous year.

In the year 1396, average dollar rate in open market was 40453 rials (an 11 percent rise compared to the preceding year), the rate of EURO was 48080 rials (a 19 percent increase in contrast to the previous year), the Pound rate was 54458 rials (a 13.4 increase compared to the preceding year), 100 Japanese Yen was 37167 rials (a 9.2 percent increase compared to the preceding year), the rate of Swiss Franc was 42642 rials (a 14.5 percent growth compared to the previous rate)

In the year 1396, the highest amounts of premiums received in the insurance market of the country for three fields were as follows: third party and surplus (95.2 thousand billion rials),

health (75.5 thousand billion rials) and car body insurance (16.1 thousand billion rials) showing 18, 27.1 and 15.3 percent increase, respectively compared to the previous year.

Over the same year, value of the transacted shares of the eligible companies on Tehran Stock Exchange was more than 643 thousand billion rials which increased by 0.7 percent compared to the previous year. Moreover, the number of transacted shares of the eligible companies on Tehran Stock Exchange in the year 1396 was more than 262 billion rials which increased by 2.4 percent compared to the previous year.
